About the release

« G L O B A L – S Y S T E M – E R R O R », the new dispatch from **m o k r o i é**, is about exploring the atavistic tendency of the world to its self-destruction. The subtitle is moreover explicit - [man's inability to refrain from war, and the crisis it ensues].

The release consists of two dense, electronic tracks, and their acoustic counterparts. While « G L O B A L – S Y S T E M – E R R O R » began life as an instrumental work, **Allonymous's** emotive, and dynamic voice fits seamlessly with the hypnotic, electronic music, featuring the drumming of **Dave Collingwood** and **Cyril Atef** on the acoustic versions. Beyond the tracks, « G L O B A L – S Y S T E M – E R R O R » features three intertwined music videos with the help of **Pulitzer Prize-winning** photographer **Sergey Ponomarev**.

This multimedia experience, by five collaborative artists — **m o k r o i é**, **Allonymous**, **Atef**, **Collingwood**, and **Ponomarev** — creates an heartbreakingly intense vision of humanity in a dark light.
